Prepare your Deployment

Prepare your Deployment

Purpose

Describes all of the required procedures for deploying UCS and its Context Services capabilities. For a description of deploying UCS as part of an eServices solution, see the *eServices Deployment Guide*.

Prerequisites

Functioning environment including:

- Management Framework: DB Server, Configuration Server.
- Genesys Administrator or Configuration Manager.
- RDBMS, either Oracle or Microsoft SQL.
- Java Environment and Libraries for eServices and UCS. This is a single component provided on your UCS product CD.
