Mac OS Support

Starting with Composer 8.1.3, the MacOS X operating system is partially supported. Consult your Genesys representative for availability or more information on this.

See the Supported Operating Environment: Composer page for more detailed information and a list of all operating systems.

> ## Important
> Support for MacOS X ended with version 8.1.300.80. The last 8.1.3 release that supported MacOS X is 8.1.300.78.
