Configurations Options Reference Manual

Local Control Agent Configuration Options

5/4/2025

Local Control Agent Configuration Options

This chapter describes the configuration options for Local Control Agent (LCA) and includes the following sections:

- [Setting Configuration Options](#)
- [Mandatory Options](#)
- [\[general\] Section](#)
- [\[lca\] Section](#)
- [\[log\] Section](#)
- [\[security\] Section](#)
- [LCA Configuration File](#)
- [Configuring ADDP Between LCA and Solution Control Server](#)
- [Changes in 8.5.x](#)

Setting Configuration Options

You change default LCA configuration options in the configuration file **lca.cfg**. See [LCA Configuration File](#) for more information.

Warning

Configuration section names, configuration option names, and predefined option values are case-sensitive. Type them in the configuration file exactly as they are documented in this chapter.

Mandatory Options

You do not have to configure any options to start LCA.
