# SIP Feature Server Deployment Guide

Planning and pre-installation

5/7/2025

# Planning and pre-installation

## Warning

This Deployment Guide applies ONLY to the Legacy SIP Feature Server 8.1.200.xx release. Unless you have been told to use this documentation, use the current [8.1.2 Deployment Guide](#)

Before installing and configuring SIP Feature Server, you must plan your environment and install required hardware and software.

In your planning, you must:

- Meet [hardware and software prerequisites](#) such as operating system, hardware, and optional Genesys components.
- Review the current [known issues and recommendations](#) for this release.
