Genesys Administrator Extension Help

Deleting Solution Definitions

Deleting Solution Definitions

When you delete a solution definition file, the solution definition file is not deleted from the database, nor are the IPs deleted from the IP repository.

Deleting a Solution Definition

1. In the **Solution Definition List** screen, select the solution definition file that you want to delete.
2. In the **Properties** area that is displayed to the right of the **Solution Definition List**, click **Delete**.
3. In the **Confirm Deletion** dialog box, do one of the following:
 - To remove the solution definition file from the database, click **OK**.
 - To keep the solution definition file and not remove it from the database, click **Cancel**.
