Deleting Installation Packages

5/5/2025

Deleting Installation Packages

To delete an IP from the repository, perform the following steps:

1. In the header, go to `Configuration > Solution Deployment > Installation Packages`.
2. Click the name of an installation package to select it. A new panel opens to the right.
3. In the `Installation Package` details panel, click the `Delete` button.
4. A dialog box appears to confirm deletion. Perform one of the following actions:

   - Click the `OK` button to delete the IP permanently.
   - Click the `Cancel` button to cancel deletion of the IP.

Important

This action is available only if the user has the `Delete IPs and SPDs` privilege.
