Genesys Administrator Extension Deployment Guide

Configuration Options

12/14/2025

Configuration Options

Contents

This appendix describes the configuration options for Genesys Administrator Extension, and contains the following sections:

- Mandatory Options
- general Section
- security Section
- asd Section
- arm Section
- com Section
- ga Section
- log Section
- clog Section
- opm Section

Setting Configuration Options

The configuration options specified in this chapter are used by GAX after it has connected to Configuration Server. GAX also reads the **gax.properties** file for configuration options that are set before it connects to Configuration Server. See Configuring GAX Properties for more information about the **gax.properties** file.

Unless specified otherwise, set Genesys Administrator Extension configuration options in the **Application Options** tab of the Genesys Administrator Extension Application object.

> ## Warning
> Configuration section names, configuration option names, and predefined option values are case-sensitive. Type them in Genesys Administrator Extension exactly as they are documented in this appendix.
