# Genesys Rules Authoring Tool Help

Test Scenario Results

# Test Scenario Results

The detail view of the test scenario results show:

- A summary result, showing the test ID and a trace of the rule execution
- The expected results as well as the actual results, for each rule that fired. Either a green or a red indicator shows whether the actual result matched the expected result.
- Optionally, you can click on the **Show Details** link to display a more technical level of log for debugging.
