GVP Documentation Supplement

New keyword Record for gvp:dest Attribute of VXML <log> tag

5/6/2025

New keyword Record for gvp:dest Attribute of VXML <log> tag

SUMMARY: To support IVR Recording the <log> tag attribute gvp:dest has a new value: **record**.

The next publication of the GVP 8.1 Voice XML Help will include these revisions:

HELP TOPIC: Standard VoiceXML > VoiceXML Tags
>   <log>
SECTION: Attributes
This table gets a new item in an existing row...

Attribute	Description
gvp:dest	This attribute specifies a space-separated list of files (<dest1> ..<destN>) to which the message generated by this log should be written. The valid values are: . . . • **Record**—To support IVR recording, the **record** destination specifies these recording commands, which do what their names suggest: Start, Pause, Resume, and Stop.
