Update content in gvp:dest attribute description in <LOG> tag

SUMMARY: Include a cross-reference to the "record" value in the gvp:dest attribute description in <LOG> tag

The next publication of the GVP 8.1 Voice XML Help will include this revision:

TOPIC: VoiceXML Tags
SECTION: <LOG>
Description:

The gvp:dest attribute description in <LOG> tag in the "GVP 8.1 Voice XML Help" document currently does not contain "record" as one of the valid values.

Add the following cross-reference to the "record" value in the gvp:dest attribute description in <LOG> tag.

To know about the "record" value, refer to the "VoiceXML Syntax" section in IVR Recording of the Genesys Interaction Recording Solution guide.
