Web Services API Reference

Create sub-category of dispositions

12/12/2025

Create sub-category of dispositions

This operation is part of the Hierarchical Dispositions API portion of the Web Services API.

Overview

Create a sub-category within another disposition group.

Example

```
POST /groups/{id}/groups
{
    "name":"MySubGroup",
    "contains":"dispositions"
}
```

In Configuration Manager

A folder is created within the folder represented by /groups/{id}.
