Outbound Record Resource

12/12/2025

Outbound Record Resource

The Outbound Record resource contains information about records, including the calling list and other attached data. Outbound records have the following endpoints: **/api/v2/me/outbound-records** and **/api/v2/me/outbound-records/<record-handle>**.

Sample Data

```
{
  'campaignName': 'Campaign1',
  'devicePath': '/devices/68b39a39-dfb5-417d-9efe-93c03a1375af',
  'callingList': 'CallingList1',
  'applicationId': 134,
  'recordHandle': 6
}
```

Resource Details

Field	Description
campaignName	The name of the outbound campaign.
devicePath	The path to a device.
callingList	The name of the calling list used by the campaign.
applicationId	The Outbound Contact Server application ID.
recordHandle	The identifier for the record.
