iWD Data Mart Reference Guide

PRODUCT Dimension

12/17/2025

PRODUCT Dimension

In some cases, a task may be associated with a specific product—for example, an order for a widget—in which the widget is the product. The PRODUCT dimension includes fields to capture the type and subtype—for example, North American widget versus European widget—of a product. This dimension is an **extended attribute** that can be set by the source system.

The PRODUCT Dimension

Field	Data Type	Description
PRODUCT_KEY	int	Primary key of this table.
PRODUCT_TYPE	nvarchar(64)	Type of the product.
PRODUCT_SUBTYPE	nvarchar(64)	Subtype of the product.
CREATED_ETL_AUDIT_KEY	int	Key to the ETL_AUDIT dimension , identifying the ETL job that created this record.
UPDATED_ETL_AUDIT_KEY	int	Key to the ETL_AUDIT dimension , identifying the ETL job that last updated this record.
