Genesys Engage Digital (eServices)

jvm-options

jvm-options

This section optionally lists JVM option pairs—for example, [“-Xmx256”, “”] or [“-Djava.class.path”, “. :C:\myjars\my-jar.jar;C:\myotherjars\ my-other-jar.jar”]. If JMS Capture Points or Groovy transformations are present, the option “-Djava.class.path” must contain a path to the Genesys-provided JAR files, as well as Message Queue provider-specific JAR files, which are required for JMS and Groovy scripts to run.
