privacy-manager-plugin

- app-name
- connection-timeout

app-name

Default Value: No default value
Valid Values: Any string
Changes Take Effect: After restart
Discontinued: 8.5.110.06

Name of the Privacy Manager Application object.

This option moved to the **gax-privacy-manager** section in the 8.5.300.10 release. See app-name.

connection-timeout

Default Value: 3
Valid Values: Any integer from 1-180
Changes Take Effect: After restart
Discontinued: 8.5.110.06

Specifies, in seconds, a timeout for Privacy Manager's attempts to connect to the server (UCS or Classification Server) specified in the current request.

This option moved to the **gax-privacy-manager** section in the 8.5.300.10 release. See connection-timeout.
