Performance DNA Administrator Guide

Branding Options

12/17/2025

Contents

- 1 Branding Options
 - 1.1 Colour Settings
 - 1.2 Style Settings
 - 1.3 Corporate Settings
 - 1.4 Legacy Colour Settings

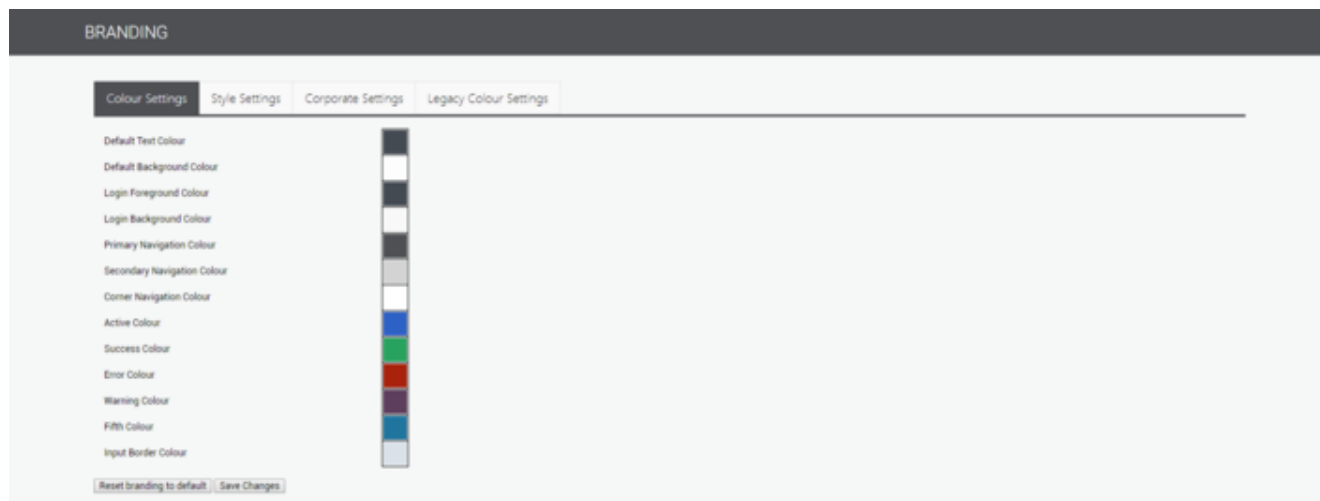

Branding Options

The branding settings allow customization of the look and feel of the application so that it closely aligns with company branding.

On the Branding page, four tabs enable you to define branding settings. The four tabs are as follows:

- [Colour settings](#)
- [Style settings](#)
- [Corporate settings](#)
- [Legacy colour settings](#)

Colour Settings

The following settings can be defined on the Colour Settings tab:

Default Text Colour	The standard colour used for most text throughout the application.
Default Background Colour	Changes the colour of some grids in the application.
Login Foreground Colour	Changes the colour of the text displayed on the login page.
Login Background Colour	Changes the colour of the login box.
Primary Navigation Colour	Changes the colour of the menu and page headers.
Secondary Navigation Colour	Changes the colour of the menu sub-items.

Corner Navigation Colour	Changes the colour of the logo section of the menu.
Active Colour	Changes the colour of the currently-selected item. It is also used for most buttons.
Success Colour	Changes the colour of messages that indicate success, and changes the colour of some Submit buttons.
Error Colour	Changes the colour of messages and highlights that indicate an error, and changes the colour of some buttons, such as Revert.
Warning Colour	Changes the colour of messages and highlights that indicate a warning.
Fifth Colour	Used when additional colours are required (I.e. on screens with many buttons or status indicators).
Input Border Colour	Changes the colour of border around any input box.

Style Settings

The screenshot shows the 'BRANDING' section with four tabs: 'Colour Settings', 'Style Settings' (active), 'Corporate Settings', and 'Legacy Colour Settings'. Under 'Style Settings', there are several configuration options: 'Header Font Type' (with a dropdown showing 'Roboto Light' and 'Roboto Regular'), 'Body Font Type', 'Change Font Size' (with a numeric input set to '12'), 'Border Style' (with radio buttons for 'Thin', 'Thick', 'Pointed', and 'Rounded'), 'Corner Style' (with radio buttons for 'Uppercase' and 'Normal'), and 'Button/Heading Text'. At the bottom, there are two buttons: 'Reset branding to default' and 'Save Changes'.

The following settings can be defined on the Style Settings tab.

Header Font Type	Sets the font for the headings within the application.
Body Font Type	Sets the font for any body within the application.
Change Font Size	Sets the size of the text within the application.
Border Style	Sets the thickness of any border within the application.
Corner Style	Sets the corner style of the boxes and buttons within the application.
Button/Heading Text	Sets the button/heading text within the application.

Important

The selected font must be available on client machines; otherwise, the font will default to one that is available.

Corporate Settings

The screenshot shows the 'BRANDING' section of the Performance DNA Administrator. The 'Corporate Settings' tab is selected. It contains several input fields and image selection buttons. The fields are: 'Enter new Header Text', 'Enter new Welcome Text', 'Choose new Company Logo', 'Choose Collapsed Company Logo', 'Choose Login Logo', and 'Choose Background Image'. Each field has a corresponding 'Select' button. The 'Choose new Company Logo' and 'Choose Collapsed Company Logo' fields show a preview of the 'GENESYS' logo. The 'Choose Login Logo' field shows a preview of the 'GENESYS' logo. The 'Choose Background Image' field shows a preview of an empty image. At the bottom, there are buttons for 'Reset branding to default' and 'Save Changes'. A note at the bottom states: 'The allowed file types are: .jpg, .png, .gif, .png'.

The Corporate Settings tab allows the user to specify company logos for the menu and Login screen. In addition, the user can select a background image to be displayed on the Login page.

The following settings can be defined on the Corporate Settings tab:

Enter new Header Text	Text displayed on the login page.
Enter new Welcome Text	Optional text.
Choose new Company Logo	The logo displayed when a menu is expanded.
Choose Collapsed Company Logo	The logo displayed when the menu is collapsed.
Choose Login Logo	The logo displayed on the Login screen.
Choose Background Image	The background image displayed on the Login page. Note: To produce a high-quality image, the resolution must be sufficient for full-screen display.

Legacy Colour Settings

The screenshot shows the 'BRANDING' section with four tabs: 'Colour Settings', 'Style Settings', 'Corporate Settings', and 'Legacy Colour Settings'. The 'Legacy Colour Settings' tab is active. It contains two sections: 'Colour Settings' and 'Chart colour settings'. Each section has a list of settings on the left and a vertical column of color swatches on the right. At the bottom, there are two buttons: 'Reset branding to default' and 'Save Changes'.

Setting	Current Color
Primary colour	Dark Blue
Heading Text colour	Dark Blue
Hyperlink colour	Dark Blue
Lighter Primary colour	Light Blue
Darker Primary colour	Light Blue
Assessment or content "Passed" colour	Green
Assessment or content "Failed" colour	Red
Assessment or content completed with no target colour	Dark Blue
Feedback assessment or content colour	Grey
Question correct colour	Green
Question incorrect colour	Red
Question part correct colour	Yellow
Kite diagram main area colour	Yellow
Kite diagram main area outline	Yellow
Kite diagram average line colour	Blue
Kite diagram best-fit line colour	Teal
Kite diagram plot background colour	Light Grey

The Legacy Colour Settings tab contains a small number of colour setting options, although these will be slowly discontinued as new versions of the product are released.
