# Performance DNA Administrator Guide

User Result Detail

## User Result Detail

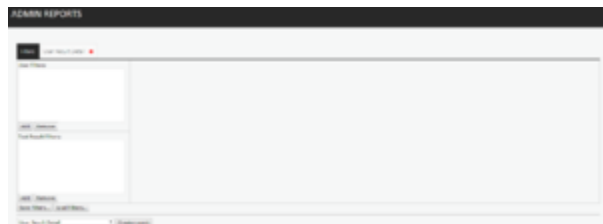

Select the **User Result Detail** report from the drop down box at bottom of the Admin Reports screen.

Next, click on **Create Report**.

The screenshot shows the 'ADMIN REPORTS' interface. At the top is a dark header with the text 'ADMIN REPORTS'. Below it is a 'Filters:' section. Inside this section, there are two filter areas: 'User Filters:' and 'Test Result Filters:'. Each area has an 'Add' button and a 'Remove' button. Below these are 'Save Filters...' and 'Load Filters...' buttons. At the bottom of the filters section is a dropdown menu currently showing 'User Result Detail' and a 'Create report' button to its right.

The report will then appear at the top of the page next to the Filters tab.

This screenshot shows the 'ADMIN REPORTS' interface after a report has been selected. The 'User Result Detail' report is now visible in the main content area, which is a large table or grid. The filters section remains on the left side of the interface.

The option to select a specific assessment from the available assessments is visible after selecting the report.

## User Result Detail

The data can then be expanded to Content and Question level with the option to Export into Excel. Click on the relevant buttons to expand the data.
