Frontline Advisor Agent Help

User Status/Violation Status Button

12/21/2025

User Status/Violation Status Button

You can use the **User Status** button () to monitor the status of alerts while Frontline Agent Advisor runs in the background.

When you trigger an alert, the icon turns red.

> ## Tip
> You may want to keep the **User Status** button on your desktop, and then if it changes color, open Frontline Agent Advisor to see the details.
