Genesys Engage cloud Workforce Management 8.5.1 Guide

Notification Role Privileges

12/22/2025

Notification Role Privileges

Important

This content may not be the latest Genesys Engage cloud content. To find the latest content, go to [Workforce Management in Genesys Engage cloud](#).

The role privileges under **Notifications** provide the following user access:

Selecting the check box for each item enables that notification (the default state). Clear the check box to disable that option:

- **Get Notified About Schedule Trading Status Changes**
- **Get Notified About Time Off Request Status Changes**
- **Get Notified About Time Off Balance-Affecting Changes**

Tip

You can set fewer objects (than those in **Configuration > Notification > Targets**) for each user that will be notified by the settings in **Users > Role Privileges > Notifications**.
