> **Tip**
>
> - This document shows *table* information because it is more informative than *view* information. However, directly querying tables is not supported; perform your queries on views.
> - This document shows the HOUR structure for each table, as an example. For each table, the same structure is used for SUBHR through YEAR views.
> - Where referenced, IRF resources include:
>   - Handling resources (such as self-service IVR ports, agents, or non-agent-associated DNs)
>   - Mediation resources (such as a non-self-service IVR ports, voice treatment ports, ACD queues, routing points, and so forth) where the interaction ends in mediation before being distributed to a handling resource.
> - *IRF* is an abbreviation for the INTERACTION_RESOURCE_FACT table.
> - *MSF* is an abbreviation for the MEDIATION_SEGMENT_FACT table.
