Available Releases

Releases are listed by version number rather than in date order. For this reason, a recent release may be listed after earlier releases, if the version number is lower. Except when otherwise noted in the information for a specific release, each release includes all of the features and corrections that were introduced for the applicable operating system at earlier dates, regardless of the version numbering.

This Release Note lists the supported operating systems for each release at a high level. For more detailed information about the supported versions for each operating system, see the [Universal Contact Server](#) page in the *Genesys Supported Operating Environment Reference Guide*.

You can find Release Notes for particular releases of Universal Contact Server Manager at the following links:

Discontinued Support

The Discontinued Support section is cumulative. It lists functionality that is no longer supported in this software and the release number of the version in which support was discontinued. This cumulative list is in release-number order with the most recently discontinued features at the top of the list.

Support for Java 1.7 is discontinued as of release 8.5.300.02.

Support for Windows Server 2008 is discontinued as of release 8.5.300.02.

Support for Windows Server 2003 is discontinued as of release 8.5.000.03.

Link to Known Issues

The Known Issues and Recommendations section is a cumulative list for all 8.5.x releases of the product. It includes information on when individual items were found and, if applicable, corrected. The Corrections and Modifications section for each release may list additional issues that were corrected without first being documented as Known Issues.

You can find information about Known Issues and Recommendations that apply to some 8.5 releases of Universal Contact Server Manager, including the issues that are specific to Localized (International) releases, at the following links:
