Resolved Issues

This release contains the following resolved issue:

Reporting Plugin for GAX now uses the host name in the request URI to make REST requests to Reporting Server (RS) when the **reporting.usehostname-in-ruri** parameter is set to true. As a result, GAX can now connect to RS when RS is configured to use HTTPS. (GVP-37434)

Upgrade Notes

For Reporting Plugin for GAX version 9.0.013.74, the required GAX version is 9.0.000.15.
