What's New

This release includes only resolved issues.

Resolved Issues

This release contains the following resolved issue:

Reporting Plugin for GAX now allows provisioning of resource groups by a non-default user with the **PRIVILEGE_RESOURCE_GROUPS_SERVICE** privilege. (GVP-38980)

If the resource group has been assigned to the current tenant by the parent, group data and resources are now displayed when you view/edit the Logical Resource Group (LRG) from the child tenant. (GVP-38845)

When the LRG is shared by parent and child tenants, Reporting Plugin for GAX now allows the following to be done only from the parent tenant and not from the child tenant:
