### What's New

This release includes only resolved issues.

### Resolved Issues

This release contains the following resolved issues:

---

The link in the instruction "**Click** to open the summary file" on the **DID Bulk Operations** window now works even if GAX is logged in via a load balancer. Previously, this link did not work when GAX was logged in via a load balancer and would throw an HTTP 401 Not authenticated error. (GVP-44222)
