Platform SDK for Java 9.0.x Release Note

This Release Note applies to all 9.0.x releases of Platform SDK for Java. Links in the Available Releases section enable you to access information regarding a specific release.

For information about 8.5.x releases of Platform SDK for Java, see the 8.5 Release Note (Cumulative).

Contents

Available Releases

Releases are listed by version number rather than in date order. For this reason, a recent release may be listed after earlier releases, if the version number is lower. Except when otherwise noted in the information for a specific release, each release includes all of the features and corrections that were introduced for the applicable operating system at earlier dates, regardless of the version numbering.

This Release Note lists the supported operating systems for each release at a high level. For more detailed information about the supported versions for each operating system, see the Platform SDK page in the *Genesys Supported Operating Environment Reference Guide*.

You can find Release Notes for particular releases of Platform SDK for Java at the following links:
