Genesys Data Processing Server 9.0.x Release Note

9.x **Genesys Data Processing Server** is part of 9.x starting in 9.0.000.04.

This Release Note applies to all 9.0.x releases of Genesys Data Processing Server. Links in the Available Releases section enable you to access information regarding a specific release.

Available Releases

[+] Note about release order

Releases are listed by version number rather than in date order. For this reason, a recent release may be listed after earlier releases, if the version number is lower. Except when otherwise noted in the information for a specific release, each release includes all of the features and corrections that were introduced for the applicable operating system at earlier dates, regardless of the version numbering.

Release 9.0.0:

Release	Release Date	Release Type	Restrictions	AIX	Linux	Solaris	Windows
9.0.001.02	03/13/19	General	Under Shipping Control		X		X
9.0.000.04	12/28/18	General	Under Shipping Control		X		X

This Release Note lists the supported operating systems for each release at a high level. For more detailed information about the supported versions for each operating system, see the Universal Contact Server page in the *Supported Operating Environment Reference Guide*.

For information about 8.5.x releases of Genesys Data Processing Server, see the 8.5 Release Note (Cumulative).

Discontinued Support

[+] Note about discontinued items

The Discontinued Support section is cumulative. It lists functionality that is no longer supported in this software and the release number or date when support was discontinued.This cumulative list is in release-number order with the most recently discontinued features at the top of the list. For more information on discontinued support for operating environments and databases, see Discontinued Support in the *Supported Operating Environment Reference Guide*.

There are no discontinued items for this product.

Known Issues

You can find a cumulative list of the Known Issues and Recommendations for all 9.0.x releases of Genesys Data Processing Server, including the issues that are specific to Localized (International) releases, at the following links:

- Known Issues and Recommendations
- Internationalization Issues

Related Resources

For additional information about Genesys Data Processing Server, see the following documentation:

- The documentation related to this software is available from the UCS page.

- The *Genesys Data Processing Server Deployment Guide* provides details about installing and configuring Genesys Data Processing Server.

- The Universal Contact Server page in the *Genesys Supported Operating Environment Reference Guide* provides detailed information about the supported operating environments, including requirements, supported versions, and any conditions or limitations for UCS components.

Release Notes for other Genesys components are available here.

Known Issues and Recommendations

Genesys Data Processing Server

The Known Issues and Recommendations section is a cumulative list for all 9.0.x releases of Genesys Data Processing Server. This section provides the latest information on known issues and recommendations associated with this product. It includes information on when individual items were found and, if applicable, corrected. The Resolved Issues section for each release describes the corrections and may list additional issues that were corrected without first being documented as Known Issues.
