What's New

This release contains the following new features and enhancements:

- The driver can now process an External Services Protocol (ESP) request that is sent from the routing strategy to check if a certain phone number is a client of WhatsApp. (MSGGA-1887)
- The following changes to configuration options:
 - A new option, x-hub-pull-reserve-time, specifies how long in seconds fetched messages are reserved by Genesys Hub. (MSGGA-1988)
 - The option x-hub-pull-size now uses the default value **10** and has a valid value range from **1** to **1000**. (MSGGA-1989)
