Voice Platform Call Control Platform 9.0.x Release Note

9.x **Voice Platform Call Control Platform** is part of 9.x starting in **9.0.013.03**.

This Release Note applies to all 9.0.x releases of Voice Platform Call Control Platform. Links in the [Available Releases](#) section enable you to access information regarding a specific release.

Available Releases

[+] Note about release order

Releases are listed by version number rather than in date order. For this reason, a recent release may be listed after earlier releases, if the version number is lower. Except when otherwise noted in the information for a specific release, each release includes all of the features and corrections that were introduced for the applicable operating system at earlier dates, regardless of the version numbering.

Release 9.0.0:

Release	Release Date	Release Type	Restrictions	AIX	Linux	Solaris	Windows
9.0.013.03	10/11/18	General			X		X

The operating systems available for use with each component release are listed in the table at a high level only. For more detailed information about the supported operating environments, including requirements, supported versions, and any conditions or limitations, see the [Genesys Voice Platform](#) page in the [Genesys Supported Operating Environment Reference Guide](#).

For information about 8.5.x releases of Voice Platform Call Control Platform, see the [8.5 Release Note \(Cumulative\)](#).

Discontinued Support

[+] Note about discontinued items

This section documents features that are no longer supported in this software. This cumulative list is in release-number order with the most recently discontinued features at the top of the list. For more information on discontinued support for operating environments and databases, see [Discontinued Support](#) in the [Genesys Supported Operating Environment Reference Guide](#).

There are no discontinued items for this product.

Known Issues

You can find a cumulative list of the Known Issues and Recommendations for all 9.0.x releases of Voice Platform Call Control Platform, including the issues that are specific to Localized (International) releases, at the following links:

- [Known Issues and Recommendations](#)

Related Resources

For additional information about Voice Platform Call Control Platform, see the following documentation:

- The documentation related to this software is available from the [Genesys Voice Platform](#) page.
- The [Genesys Voice Platform Deployment Guide](#) provides details about installing and configuring Voice Platform Call Control Platform.
- The [Genesys Voice Platform](#) page in the [Genesys Supported Operating Environment Reference Guide](#) provides detailed information about the supported operating environments, including requirements, supported versions, and any conditions or limitations for Genesys Voice Platform components.

Release Notes for other Genesys components are available [here](#).

Known Issues and Recommendations

Voice Platform Call Control Platform

The Known Issues and Recommendations section is a cumulative list for all 9.0.x releases of Voice Platform Call Control Platform. This section provides the latest information on known issues and recommendations associated with this product. It includes information on when individual items were found and, if applicable, corrected. The Resolved Issues section for each release describes the corrections and may list additional issues that were corrected without first being documented as Known Issues.

See also [Internationalization Issues](#).

There are no known issues or recommendations for this product.

Internationalization Issues

Information in this section is included for international customers. Release numbers in the **Found In** and **Fixed In** fields refer to the English (US) release of Voice Platform Call Control Platform unless otherwise noted in the issue description.

There are no internationalization issues for this product.

9.0.013.03

Voice Platform Call Control Platform Release Notes

9.x This is the first 9.x release of **Voice Platform Call Control Platform**.

Release Date	Release Type	Restrictions	AIX	Linux	Solaris	Windows
10/11/18	General			X		X

What's New

This release contains the following new features and enhancements:

- Call Control Platform (CCP) supports Windows Server 2016 Standard edition. See the [Genesys Voice Platform](#) page in the [Genesys Supported Operating Environment Reference Guide](#) for more detailed information and a list of all supported operating systems.
- CCP now uses OpenSSL libraries version 1.0.2j.
- CCP supports the TLSv1, TLSv1.1, and TLSv1.2 versions of Transport Layer Security (TLS).
- CCP supports the SSLv2, SSLv3, and SSLv23 versions of Secure Sockets Layer (SSL).

The sip.transport.<n> type = (default is TLSv1_2) and ssl_version = (default is 0) configuration options support the versions of TLS and SSL mentioned above.

transport.0
transport.1
transport.2
transport.3
transport.4
transport.5

Resolved Issues

This release contains the following resolved issues:

CCP is no longer blocked while waiting for an SSL connection to a web server through an HTTPS proxy to finish. (GVP-37123)

CCP no longer restarts when it receives SIP response 491 followed by SIP CANCEL message for an INVITE message in Conferencing. (GVP-21697)

CCP no longer deadlocks in a race condition, in the time between a SIP response to a dialog and the dialog cancellation on the application level. (GVP-21237)

CCP no longer terminates unexpectedly while a fetched document is being compiled. (GVP-21113)

Upgrade Notes

No special procedure is required to upgrade to release 9.0.013.03.
