SIP Endpoint SDK Overview

T-Lib-Initiated Consult Transfer re-INVITE

12/15/2025

T-Lib-Initiated Consult Transfer re-INVITE

Description

SIP Server implements a TInitiateTransfer by invoking THoldCall and TMakeCall in a sequence.

The call scenario for TCompleteTransfer is shown here. It assumes a call from UA1 to UA2 is placed on hold and that a call from UA2 to UA3 is in the Established state.
