Genesys Interaction Recording

General Information - Genesys Interaction Recording

Genesys Interaction Recording includes the following components: Recording Processor Script, Recording Crypto Server, Genesys Screen Recording Service (SRS), Recording Muxer Script, Interaction Recording Web Services and Lost Voice Recording (LVR) Recovery Script. The Genesys Interaction Recording Solution also includes the following composite products: [Genesys Administrator Extension](#), [Genesys Voice Platform](#), [Genesys Info Mart](#), [Interaction Concentrator](#), [SpeechMiner](#), [SIP Server](#), and [Universal Routing Server](#). For supported operating environment information of these products, refer to the associated pages in this guide.

Important

Genesys support for the platform versions mentioned on this page ends when the respective vendors declare End of Support. For more information, see [Discontinued Support](#).
