Genesys Voice Platform

General Information - Genesys Voice Platform

This page covers the following components that fall under this GVP SOE page:

- Call Control Platform
- CTI Connector
- MRCP Proxy
- Policy Server
- Supplementary Services Gateway
- Third-Party Squid

See the [Genesys Media Server](#) SOE page if you're looking for SOE information for the following:

- Genesys Media Control Platform
- Resource Manager
- Reporting Server
- Reporting Plug-In for GAX
- Management Information Base (MIB)
- T-Server-CUCM to Media Server Connector

Important

Genesys support for the platform versions mentioned on this page ends when the respective vendors declare End of Support. For more information, see [Discontinued Support](#).

Supported Operating Systems

Notes:

- For Microsoft products with sub-versions such as R1/R2, all versions are supported except as noted for the specific product.
- Genesys supports use of products on CentOS Linux, provided that the CentOS Linux distribution is 100% compatible with a Genesys-supported Red Hat distribution.
- Genesys supports use of products on Oracle Linux, provided that the Oracle Linux distribution is 100% compatible with a Genesys-supported Red Hat distribution, and that the Oracle Unbreakable Enterprise Kernel is not used. Genesys will only support Oracle Linux based on testing and reproduction of any issues in the equivalent Red Hat Linux version; no investigation or testing will be performed on Oracle Linux itself. Support only applies to Oracle Linux versions 5.x and later.
