T-Server for CSTA Connector Deployment Guide

T-Server Specific Configuration Options

5/11/2025

T-Server Specific Configuration Options

This section describes the configuration options unique to the T-Server for CSTA Connector and includes these topics:

- Application-Level Options
- DN-Level Options
- Agent-Specific Override Options

Note: To establish a link connection, configure the link options that are applicable to the connection protocol used in your environment (TCP/IP).
