Master Schedule Intra-Day Accessible Schedule Details

Master Schedule Intra-Day Accessible Schedule Details

To reach this view, you clicked **Accessible Schedule Details**  in a specific agent's row, for a specific date, in any of the four views listed above.

This view is designed specifically for screen-reader software, and for ease of selecting commands. It includes:

- Read-only information about the selected agent's team, time, and other statuses.
- A table that lists in each row: one item in the schedule and multiple buttons to modify it.
- A field for comments by users.
- Buttons for inserting items into the selected day on the selected agent's schedule—also for deleting items, and for performing other functions.

Click a button to display the dialog box or the wizard which corresponds to that action.

If you select any action or command in error, click **Cancel** on the unwanted dialog box, to return to the **Accessible Schedule Details** view.
