[Add Comments to a Forecast](#)

Add Comments to a Forecast

Use the **Comments** window to add comments to a forecast scenario. For example, you might want to add a comment after making manual changes to a scenario, so that you can keep a record of the changes.

You can add comments only for an activity, not for a site. A **Forecast scenario** activity can have numerous comments, including a new comment for each day.

See the following sections:

- [Adding comments to a forecast scenario.](#)
- [Editing existing comments.](#)
- [Deleting existing comments.](#)
