Workforce Management Web for Supervisors Help

Template Properties: Graph Tab

Template Properties: Graph Tab

Use the **Template Properties** view's **Graph** tab to view a forecast template's values in a graphical format.

To adjust the graph's displayed time interval, use the **Display Date** drop-down list.

- If you select **Whole Period**, the graph's horizontal axis indicates:
 - Days of the week, for non-overlap templates.
 - All dates in the template, for overlap templates.
- If you select an individual weekday (for non-overlap templates) or a specific date (for overlap templates), the horizontal axis indicates timesteps.

The graph's vertical axis identifies the values shown in the graph.
