Web Real-Time Communications Deployment Guide

Prepare your Deployment

12/18/2025

Prepare your Deployment

Purpose
To list the items to consider before you install and set up the Genesys WebRTC Service.

Complete the following tasks before installing the Genesys WebRTC Service:

- Review the Interoperability Considerations and ensure that the required components have been installed.

- If you don't have one already, set up a Web Server to host and serve the Genesys WebRTC JavaScript API/SDK files and the demo application over HTTPS and/or HTTP.
